

# Indian Creek Ramp

## Replacement Project

### September 1 – 8, 2012

The boat ramp at Indian Creek is going to be torn out and replaced very soon. The work begins Sept 1<sup>st</sup> and should be completed by Sept. 8<sup>th</sup>. The ramp will not be available during that time.

Dave England, our river checker at Indian Creek, and Diana Yupe, the American Indian Interpreter at Indian Creek, have worked to improve an old trail to the beach as an alternative way to move boats and gear down to the beach. The picture to the right offers an uphill view of the trail.

The starting point for the trail is downstream of the sign near the ramp, so your pilot should pull in there to unload your gear.

Thank you for your patience as we begin this much-needed ramp project.
